COVID-19 Vaccinations

Clinic - March 9 - 12, 2021

Vaccinations will be available to anyone 18 years and older if they live or work on an LNIB reserve. **Vaccinations are by appointment only** so you must register with our health services staff (250-378-4089).

Appointments are scheduled at 15 minute intervals. If you are late for your appointment, you will be rescheduled to a later time/day.

Appointments will first be scheduled for Elders in the community. We are receiving sufficient vaccines that all who wish to receive a vaccine will do so. **Once you are registered, the Nurse will call you to schedule your appointment.**

Do not arrive at the clinic and expect to receive a vaccination unless your appointment is scheduled.

If you are uncertain about whether you can have the vaccine, please speak with your healthcare provider. People who have had Covid cannot get the vaccine until four months after their “all clear” test results.
